a.DISCLAIMER OF THE ISSUER

This Information Memorandum is neither a Prospectus nor a statement in lieu of Prospectus. It does not and shall not deem to constitute an offer or an invitation to the Public to subscribe to the Capital Gain Bonds issued by Indian Railways Finance Corporation Limited (“IRFC” or “Company” or “Issuer”). This Information Memorandum is not intended for distribution and is for the consideration of the person to whom it is addressed and should not be reproduced/redistributed by the recipient. It cannot be acted upon by any person other than to whom it has been specifically addressed. Multiple copies hereof given to the same entity shall be deemed to be offered to the same person. The bonds mentioned herein are being issued strictly on a private placement basis and this offer does not and shall not deem to constitute a public offer/invitation.

This Information Memorandum is not intended to form the basis of evaluation for the potential investors to whom it is addressed and who are willing and eligible to subscribe to these Bonds issued by IRFC. This Information Memorandum has been prepared to give general information regarding IRFC to parties proposing to invest in this issue of Bonds and it does not purport to contain all the information that any such party may require. IRFC believes that the information provided in this Information Memorandum as of the date hereof is true and correct in all respects. IRFC and the Arrangers do not undertake to update this Information Memorandum to reflect subsequent events and thus, it should not be relied upon without first confirming its accuracy with IRFC.

Potential investors are required to make their own independent evaluation and judgment before making the investment and are believed to be experienced in investing in debt markets and are able to bear the economic risks of investing in the Bonds. It is the responsibility of potential investors to have obtained all consents, approvals or authorizations required by them to make an offer to subscribe for, and purchase the Bonds. It is the responsibility of the potential investors to verify if they have necessary power and competence to apply for the Bonds under the relevant laws and regulations in force. Potential investors should conduct their own investigation, due diligence and analysis before applying for the Bonds. Potential investors should not rely solely on information provided in the Information Memorandum or by the Arrangers nor would providing of such information by the Arrangers be construed as advice or recommendation by the Issuer or by the Arrangers to subscribe to and purchase the Bonds. Potential investors also acknowledge that the Arrangers do not owe them any duty of care in respect of their offer to subscribe for and purchase of the Bonds. Potential investors should also consult their own tax advisors on the tax implications of the acquisition, ownership and redemption of Bonds and income arising thereon. IRFC reserves the right to withdraw the Private Placement prior to the closing date at its discretion. In such an event, the Issuer may, at its sole discretion, will make the allotment under the new series of IRFC 54EC bonds, if open for subscription at that time.

This Private Placement Memorandum is issued by IRFC and is signed by its authorized signatory.

VI. MANAGEMENT'S PERCEPTION OF RISK FACTORS: -

Prospective investors should carefully consider all the information in this Private Placement Memorandum, including the risks and uncertainties described below, before making an investment in the Bonds. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business prospects, results of operations and financial condition. If any of the following or any other risks actually occur, our business prospects, results of operations and financial condition could be adversely affected and the price of, and the value of your investment in the Bonds could decline and you may lose all or part of your redemption amounts and/or interest amounts.

RISKS RELATING TO OUR BUSINESS AND INDUSTRY

- 1. We derive a significant amount of our revenue from operations from the Indian Railways. A loss of or reduction in business from the Indian Railways, any direct borrowing by the Indian Railways or introduction of any new avenues of funding by the Ministry of Railways, Government of India (the "MoR") could have an adverse effect on our business.***

We are the dedicated market borrowing arm of the Indian Railways. The vast majority of our revenue is generated from leasing Rolling Stock Assets/Project Assets to the Indian Railways. Lease income, interest on loans and pre commencement lease interest income together represented 99.99% and 99.99% of our total revenue from operations in Fiscal 2022 and Fiscal 2021, respectively. Our business and revenues are substantially dependent on the policies of the MoR and operations of the Indian Railways. Any change that might affect the MoR's ability and willingness to meet its contractual obligations under the Standard Lease Agreement entered into with us will have an adverse impact on the financial position of our Company. Further, any shift in the funding pattern of the Indian Railways, such as, reduced demand for Rolling Stock Assets/Project Assets or reliance on internal accruals or preference to other funding arrangements, such as, public private partnerships, will have an adverse impact on our results of operations. Any corporatization or privatization of the Indian Railways allowing the MoR to raise funds directly from banks, NBFCs and other financial institutions will also have an adverse impact on our business, results of operation and financial condition. Therefore, the overall prospects of our business is closely tied to our relationship with the MoR. We do not have any control over the GoI and its related entities, including, the MoR, or its policies and any adverse changes in the policies of the GoI may have an adverse impact on our business, results of operations and financial condition.

- 2. Our business is dependent on the continued growth of the Indian railway sector, which makes us susceptible to GoI initiatives to modernize the railways and other policies. Any slowdown in the growth of Indian Railways will impact our business and results of operations.***

The Indian Railways faces significant competition in the transport sector from other means of transportation such as transport by road, sea and air. While the Indian Railways continuously looks to augment its infrastructure and undertake other necessary improvements to the railway network, competition in freight traffic from the road sector is likely to intensify further, as present projects for upgrading road networks are completed. The Indian Railways' vulnerability to competition from other means of transportation could increase if cross- subsidies between freight and passenger fares remain at the current high levels, particularly when the road network is improving and oil pipelines are being built. Therefore, any slowdown in the growth of the Indian Railways Sector and changes in the policies of, or in the level of direct or indirect support to us provided by, the Government of India in these or other any areas could have a material adverse effect on our business, financial condition and results of operations.

- 3. Our ability to operate efficiently is dependent on our ability to maintain diverse sources of funds at a low cost. Any disruption in our funding sources or any inability to raise funds at a low cost could have a material adverse effect on our business, financial condition and results of operations.***

Our liquidity largely depends on timely access to and costs associated with, raising capital. Our funding requirements historically have been met through various sources including from taxable and tax-free bonds in India, term loans from banks/ financial institutions, external commercial borrowings including bonds and syndicated loans, internal accruals, asset securitization and lease financing. Our finance costs were Rs.101,626.60 million, Rs.112,370.50 million and Rs.140,747.82 in Fiscals 2020, 2021 and 2022. Our Cost of Borrowings was 7.27%, 6.35% and 6.23% in Fiscal 2020, 2021 and 2022 respectively. As we are fundamentally dependent upon funding from the debt markets and commercial, our ability to continue to obtain funds from the debt markets and through commercial borrowings on acceptable terms and our ability to access new sources of funding, markets or investors, is dependent on various factors, such as, our ability to maintain our existing credit ratings, which are based on several factors, many of which are outside our control, including the economic conditions in the Indian economy and liquidity in the domestic and global financial markets. Further, since we are a non-deposit taking NBFC, we have restricted access to funds in comparison to banks and deposit taking NBFCs.

Our ability to operate efficiently is dependent on our ability to maintain a low effective cost of funds. Therefore, timely access to, and the costs associated with, raising capital and our ability to maintain a low effective cost of funds in the future is critical. Our business depends and will continue to depend on our ability to access diversified low-cost funding sources.

If we are unable to obtain adequate financing or financing on terms satisfactory to us and in a timely manner or are unable to access new sources of funding or markets and investors, our ability to grow or support our business and to respond to business challenges could be limited and our business, prospects, financial condition and results of operations would be materially and adversely affected.

4. *In the event the margin on the Rolling Stock Assets/Project Assets leased to the MoR by our Company is not favourable, it may have an adverse impact on our financial condition and results of operation.*

We operate on a cost-plus based model. We receive lease rentals which include the value of the Rolling Stock Assets/Project Assets leased by us to the MoR in the relevant fiscal year, the weighted average cost of incremental borrowing as well as a certain margin, all in accordance with the terms of the Standard Lease Agreement, which we enter with the MoR for leasing of Rolling Stock Assets/Project Assets subsequent to the end of the relevant fiscal year. The margin is determined by the MoR in consultation with us at the end of each Fiscal.

In Fiscal 2022 we were entitled to a margin of 40 bps and 35 bps over the weighted average cost of incremental borrowing for financing Rolling Stock Assets and Project Assets respectively. In Fiscal 2018, the margin for financing Rolling Stock Assets was reduced to 30 bps from 50 bps in Fiscal 2017. There can be no assurance that the margin determined will be favourable for us. Any adverse determination of the margin will also impact our profitability and results of operation including leverage capacity. In the event the margin determined is not favourable, it may also adversely affect our financial condition and results of operation.

5. *Mismatch in the tenor of our leases and borrowings may lead to reinvestment and liquidity risk, which may adversely impact our financial condition and results of operations.*

A majority of our revenues is derived from the Standard Lease Agreements. These agreements with respect to Rolling Stock Assets and Project Assets currently provide for a primary lease period of 15 years, followed by a secondary lease period of another 15 years for Rolling Stock assets and 10 years for Project Assets, unless otherwise revised by mutual consent. We receive lease rentals, which include the value of the Rolling Stock Assets/Project Assets leased by us to the MoR in the relevant fiscal year, the weighted average cost of incremental borrowing as well as a certain margin, within the primary lease period. Typically, the weighted average cost of incremental borrowing factors in any expenses incurred by us with respect to any foreign currency hedging costs and / or losses (and gains, if any) as well as any hedging costs for interest rate fluctuations. Repayments occur half yearly by instalments during the primary lease period. While a majority of our borrowings require us to make bullet repayments, we also have certain borrowings where we are required to make one-time repayments. Such repayment of such borrowings in certain years may give rise to a temporary mismatch. This may potentially give rise to a liquidity risk and interest rate risk when we are required to refinance our loans and other borrowings. If we are unable to refinance our borrowings on favourable terms or reinvest the lease rentals on favourable terms, it could adversely affect our business, financial condition and results of operations.

6. *Any change in the terms of the Standard Lease Agreement entered into by us with the MoR may have an adverse effect on our business, financial position and result of operations.*

We enter into a Standard Lease Agreement with the MoR on an annual basis, subsequent to the end of the relevant fiscal year, in respect of Rolling Stock Assets/Project Assets leased by us to the MoR during the relevant Fiscal. Under the terms of the Standard Lease Agreement, the MoR covenants that in the event we are unable to redeem our bonds on maturity and/ or repay our loans resulting from inadequate cash flows, the MoR is required to make good such shortfall through bullet payments in advance before the maturity dates of such bonds/ term loans. Such payments are required to be adjusted in the subsequent lease rentals payable under the respective Standard Lease Agreement. If such assurance/ undertakings cease to be valid or the MoR fails to comply with the performance of such undertakings or such undertakings are amended or modified or altered or if we waive compliance with any provision of such undertakings, it may result in an event of default thereby accelerating repayment under the various bonds issued by us and we will not have any direct right of action or right of subrogation against the MoR. In addition, the MoR may not provide such assurances/ undertakings in the subsequent Standard Lease Agreements. Further, expenses incurred by us with respect to any foreign currency hedging costs and/ or losses (and gains, if any) as well as any hedging costs for interest rate fluctuations are typically included in the weighted average cost of incremental borrowing, which is determined by the MoR in consultation with us at the end of each Fiscal. However, there can be no assurance that the MoR will allow us to continue to include such hedging costs pertaining to foreign currency and interest rates in the weighted average cost of incremental borrowing under subsequent Standard Lease Agreements and should the MoR decline to include such costs in the weighted average cost of incremental borrowing, it may adversely affect our financial conditions and results of operations.

7. *The Standard Lease Agreement is executed after the end of the Fiscal to which it relates and there can be no assurance that the agreement will be executed each year.*

The Standard Lease Agreement governs the lease rentals for the Rolling Stock Assets/Project Assets payable by the MoR to us and specifies details of the Rolling Stock Assets/Project Assets leased to the MoR by our Company. The lease rentals include the value of the Rolling Stock Assets/Project Assets leased by us to the MoR in the relevant fiscal year, the weighted average cost of incremental borrowing as well as a certain margin, all in accordance with the terms of the Standard Lease Agreement and determined at the end of the relevant fiscal year. The weighted average cost of incremental borrowing and margin are determined by the MoR in consultation with us. The lease rentals are calculated as equal to half yearly payments to be made by the MoR, so as to ensure that our obligation to repay and settle our debts is fully met during primary lease period of 15 years.

The Standard Lease Agreement is executed at the end of Fiscal but comes into effect from the date of commencement of that Fiscal. Lease rentals during any particular year are calculated using the weighted average cost of incremental borrowing and margin relevant to that Fiscal. There can be no assurance that such arrangements will be honoured with respect to our ownership of the Rolling Stock Assets/Project Assets or in relation to the lease rentals in a timely manner or at all. Any failure to execute the Standard Lease Agreement may adversely affect our business, results of operations, prospects and financial condition.

In addition, in relation to funding of Project Assets under Extra Budgetary Resources (Institutional Financing) (“**EBR-IF**”), MOR vide letter dated 23rd July 2015 had authorized the Company to draw funds from Life Insurance Corporation of India (LIC) in consultation with MOR for funding of Railway Projects in line with finance leasing methodology adopted by Company for funding Railway Projects in past. In addition to funds raised from LIC, the Company has also funded MoR from other borrowings and internal accruals. Pending execution of the Lease Documents, the Company had entered into a Memorandum of Understanding with the Ministry of Railways on 23rd May 2017 containing principal terms of the lease transactions. Subsequently, the MoU between MoR and LIC expired in Fiscal 2020. The Company has now entered into a fresh Memorandum of Understanding with Ministry of Railways on 2nd March 2021 superseding all the earlier MoU's/ arrangement's. Funds raised are being utilized for implementing identified railway projects.

The Lease Agreement(s) between MOR and the Company for Project assets funded under EBR IF 2015-16 & 2016-17 and National Projects 2018-19 & 2019-20 with respect to aforesaid infrastructure assets have been executed. Any failure to execute project agreements for future periods may impact our title to project assets being funded by us under such arrangements and could have an adverse impact on our business, financial condition and results of operation.

8. *Any downgrade in our credit ratings or India's debt rating could increase our finance costs and adversely affect our ability to borrow funds and our business, results of operations, financial condition and cash flows.*

The cost and availability of capital depends in part on our domestic and international credit ratings. Credit ratings reflect the opinions of rating agencies on our financial strength, operating performance, strategic position and ability to meet our obligations. Any downgrade in our credit ratings could cause our lenders to impose additional terms and conditions to any financing or refinancing arrangements that we enter into in the future.

We have been accorded ratings of ‘AAA’ by CRISIL, ‘ICRA (AAA)’ by ICRA and ‘CARE AAA’ by CARE each with respect to our debt programme. International credit rating agencies such as Moody's have rated us Baa3 (Stable) while Fitch, Standard & Poor's and Japan Credit Rating Agency have rated us BBB- ‘Stable’, BBB- (Stable) and BBB+ (Stable). These ratings continue to remain valid till such time these are modified by the respective rating agency. Any downgrade in our credit ratings could increase borrowing costs and adversely affect our business, results of operations, financial condition and cash flows.

Our borrowing costs and our access to the debt capital markets depends significantly on the credit ratings of India. India's sovereign rating is Baa3 with a “Stable” outlook (Moody's), BBB- with a “stable” outlook (S&P), BBB+ with a “stable” outlook (Japan Credit Rating Agency) and BBB- with a “Stable” outlook (Fitch). Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance.

9. *Non-availability of funding from the Life Insurance Corporation of India (“LIC”) matching the requirement of funds by Indian Railways for railway projects under EBR-IF may affect the asset-liability position of our Company.*

We have in the past raised funds from the LIC. The MoR had entered into a MoU dated March 11, 2015 with LIC to avail Rs.15,00,000 million over a period of five years, commencing from Fiscal 2016. LIC cumulatively has disbursed

a sum of Rs.2,05,000 million. Based on this MoU, we entered into a MoU with the MoR dated May 23, 2017 to be the intermediary for the funding from LIC. The MoU provides for a tenor of 30 years for each installment, with capitalization of interest accruing in the first five years and repayment of principal in equal semi-annual installments in 20 years commencing after a moratorium of 10 years. In terms of the MoU executed between our Company and the MoR, the repayment terms by the MoR are to be kept similar to the structure of funding from LIC. Subsequently, the MoU between MoR and LIC expired in Fiscal 2020. This arrangement with the LIC has subsequently ended in Fiscal 2020.

Going forward we may not be able to avail funding from the LIC matching the requirements of the Indian Railways and accordingly, we will be required to arrange funds from other sources to bridge the shortfall which has shorter tenor as compared to the tenor of funding that we have availed from the LIC in the past. Accordingly, unavailability of funding from the LIC matching the requirement of funds by Indian Railways for railway projects under EBR-IF may affect our asset-liability position. Further, we have requested the MoR to maintain the tenor of lease between our Company and the MoR corresponding to the tenor of borrowing for railway projects. In the event of a mismatch between the tenor of the loans to the MoR and that of the bonds issued/ loans raised by our Company for financing railway projects, our results of operations and financial condition may be adversely affected.

10. We are currently exempt from provisioning requirements in respect of deferred tax asset or deferred tax liability, however, there can be no assurance that the MCA will not withdraw the exemption in future.

Pursuant to circular S.O. 529 (E) dated February 5, 2018 and subsequent amendment through circular dated April 2, 2018 (collectively, the “DTL Circulars”) issued by the MCA, a government company which is engaged in the business of infrastructure finance leasing with not less than 75% of its total revenue being generated from business with government companies or other entities owned or controlled by the GoI are exempt from the requirements of provisioning in respect of Ind AS 22 or Ind AS 12 relating to deferred tax asset or deferred tax liability, respectively with effect from April 1, 2017. Subsequently, the MCA vide their communication no. Eoffice F.No.17/32/2017-CL-V dated March 20, 2020, advised our Company to apply paragraph 11 of Ind AS 01, first time adoption of Ind AS read with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors. Accordingly, our Company has during Fiscal 2020 reversed the deferred tax liability of Rs.64,431.40 million by crediting the retained earnings as at April 1, 2017, being the date of transition to Ind AS.

Our profitability may be adversely affected if any of these DTL circulars are withdrawn. Further, there can be no assurance that the MCA will not withdraw the existing exemptions, which may adversely affect our business, net worth, financial condition and results of operations.

11. We are involved in certain legal proceedings, any adverse developments related to which could materially and adversely affect our business, reputation and cashflows.

There are outstanding legal proceedings involving our Company which are incidental to our business and operations. These proceedings are pending at different levels of adjudication before various courts, tribunals and appellate tribunals. We cannot assure you that these proceedings will be decided in our favour or that no further liability will arise out of these proceedings. A summary of the outstanding criminal proceedings, tax proceedings, actions taken by statutory and regulatory authorities and other ‘material’ litigation as per the Materiality Policy, if any, involving our Company is set out below:

Litigation involving our Company

(Rs. in million)

S. No.	Nature of litigation	Number of cases	Approximate amount involved*
<i>Litigation against our Company</i>			
1.	Criminal	Nil	Not Applicable
2.	Tax	2	26,547.10
3.	Actions taken by statutory and regulatory authorities	Nil	Not Applicable
4.	Other ‘material’ litigation as per the Materiality Policy	1	Nil
<i>Litigation by our Company</i>			
1.	Criminal	1	0.60
2.	Other ‘material’ litigation as per the Materiality Policy	Nil	Not Applicable
3.	Tax	1	14,664.40

* to the extent quantifiable

The amounts claimed in the abovementioned proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase our expenses and current liabilities. Further, such legal proceedings could divert management time and attention and consume financial resources.

12. Our Company is not in compliance with certain provisions of the SEBI Listing Regulations.

As of the date of this PPM, the composition of our Board of Directors is not in compliance with the requirements of the SEBI Listing Regulations. The Board of Directors are:

Sr. No.	Name, Designation and DIN
1.	<p>#Ms. Shelly Verma Designation: Chairman & Managing Director (Addl. Charge), Director Finance and Chief Financial Officer</p> <p><i># She has been entrusted with the additional charge of the post of CMD/IRFC w.e.f. 15/10/2022 in addition to her own, for a period of three months or until further orders, whichever is earlier as per Ministry of Railways, Government of India's order No. 2018/E(O)II/40/19 dated 15th October 2022. Further, as per Ministry of Railways, Government of India's order No. 2018/E(O)II/40/19 dated 16th January, 2023, Ministry has decided that, pending approval of the Competent Authority, she will continue to hold the additional charge of the post of CMD/IRFC, in addition to her own until further orders.</i></p>
2.	<p>Shri Baldeo Purushartha Designation: Part time Government Director</p>
3.	<p>Mr. Bhaskar Choradia Designation: Part-time Government Director</p>
4.	<p>Shri Vallabhbbhai Maneklal Patel Designation: Non-Official Independent Director</p>
5.	<p>Smt. Sheela Pandit Designation: Non-Official Independent Director</p>

Mr. Amitabh Banerjee (DIN: 03315975) - He may be divested of the charge of the post of CMD / IRFC w.e.f. 15/10/2022 until further orders, as per Ministry of Railways, Government of India's order No. 2018/E(O)II/40/19 dated 15th October 2022.

Accordingly, the composition of the Board of Directors is not in compliance with the applicable provisions of the SEBI Listing Regulations. Accordingly, in order to be compliant with the applicable corporate governance requirements of the SEBI Listing Regulations, our Company is required to appoint additional independent directors. In this regard, the Company has informed the MoR of the statutory requirement of appointing additional independent directors on its Board of Directors, to ensure compliance with applicable corporate governance norms. Being a CPSE and under the administrative control of the MoR, we are required to follow the procedures and guidelines specified by the MoR from time to time, including in relation to corporate governance. Further, as specifically provided under Article 198 of the Articles of Association of the Company, directors of the Company are appointed by the President of India, acting through the MoR. To that extent, the appointment and selection of the Board of Directors of our Company, is beyond our control.

Pursuant to the exemption letter dated November 27, 2020, our Company was exempted from compliance with the above-mentioned requirements of the SEBI ICDR Regulations and the SEBI Listing Regulations in relation to appointment of Independent Directors, till listing of the Equity Shares. Now our Company will be required to comply with inter alia the above-mentioned requirements of the SEBI Listing Regulations. Further, we may be subject to penalties for non-compliance with any of the aforementioned provisions of the SEBI Listing Regulations and SEBI ICDR Regulations which could have an adverse effect on our reputation, business operations, financial conditions and results of our operations.

13. Our risk management measures may not be fully effective in mitigating our risks in all market environments or against all types of risks, which may adversely affect our business and financial performance.

We are exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data. Our hedging strategies and other risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behaviour. As a result, these methods may not predict future

risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets or other matters. This information may not in all cases be accurate, complete, current, or properly evaluated. Management of operational, legal or regulatory risk requires, among other things, policies and procedures to properly record and verify a number of transactions and events.

Although we have established policies and procedures, they may not be fully effective to accomplish our objectives. As the company seeks to expand the scope of its operations, it also faces the risk of failing to develop risk management policies and procedures that are designed for such operations in a timely manner or at all. Our future success will also depend, in part, on our ability to respond to evolving NBFC sector standards and practices on a cost-effective and timely basis. The development and implementation of standards and practices entails significant technical and business risks. There can be no assurance that we will successfully adapt to evolving market standards and practices. Any inability to develop and implement effective risk management policies may adversely affect our business, prospects, financial condition and results of operations.

14. Our ability to raise foreign currency borrowings may be constrained by Indian law.

One of the sources of our funds is external commercial borrowings. As of March 31, 2022, we had Rs.6,64,163.01 million in external commercial borrowings denominated in U.S. Dollars and Japanese Yen. Further, our ability to raise foreign currency borrowings is limited to USD 1.5 billion or equivalent upto 31st December 2022 and USD 750 million or equivalent per financial year after 31st December 2022 under the automatic route without the prior approval of the Reserve Bank of India, subject to compliance with parameters and other terms and conditions set out in the external commercial borrowings policy/ framework issued by the Reserve Bank of India. As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required regulatory approvals for borrowings in foreign currencies will be granted to us without onerous conditions, if at all. Limitations on raising foreign debt may have an adverse effect on our business, financial condition and results of operations.

We are subject to the Foreign Exchange Management (Borrowing and Lending) Regulations, 2018 and the Master Direction – External Commercial Borrowings, Trade Credits and Structured Obligations RBI/FED/2018-19/67 FED Master Direction No. 5/2018-19 dated 26 March 2019 (“ECB Guidelines”), including applicable regulations, guidelines and circulars issued by the RBI, which governs all forms of borrowing from non-resident entities other than by the issue of non-convertible debentures in domestic market, affecting our ability to freely raise foreign currency borrowings. For instance, under the ECB Guidelines, we are restricted to borrowing from certain ‘recognised lenders’ that are defined therein. The borrowings that we avail are subject to restrictions such as prescriptions on permissible end uses, minimum maturity period specifications and hedging requirements. We are also subject to caps on the maximum amount we may raise, beyond which we shall be required to obtain the approval of the RBI for any additional borrowings. Such provisions may affect our ability to borrow effectively and on favourable terms.

15. If we are unable to manage our growth effectively, our business and financial results could be adversely affected.

Our business has grown since we began operations in 1986. Our total assets increased by 33.46% from Rs.20,64,382.90 million as of March 31, 2019 to Rs.27,55,041.30 million as of March 31, 2020 and by 38.10% to Rs.38,04,815.23 million as of 31 March 2021 and by an addition of 18% to Rs. 44,89,802.24 million as of 31 March 2022. We intend to continue to grow our business, which could place significant demands on our financial and other internal risk controls. It may also exert pressure on the adequacy of our capitalisation, making management of asset quality increasingly important.

Our ability to sustain and manage growth depends primarily upon our ability to manage key operational issues, such as our ability to raise funds on acceptable terms and at competitive rates which in turn depends on various factors, including the regulatory environment and policy initiatives in India, lack of liquidity in the market, developments in the international markets affecting the Indian economy, investors’ and/ or lenders’ perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition. If we are unable to maintain the quality of our assets, obtain adequate financing or financing on terms satisfactory to us and in a timely manner, our ability to grow or support our business and to respond to business challenges could be limited and our business prospects, financial condition and results of operations would be materially and adversely affected.

Our ability to sustain and manage growth is also affected by factors outside of our control, such as GDP growth, changes in regulatory policies, changes in demand for rolling stock by Ministry of Railways and changes in interest rates. We may not be able to successfully maintain growth rates due to unfavorable changes in any one or more of the aforementioned factors. Our inability to effectively manage any of these operational issues or react to external factors may materially and adversely affect our business, prospects, financial condition, and results of operations.

**16. Post completion of the Initial Public Offering by our Company, our cost of borrowings may go up**

Before IPO, our Company was wholly owned by the GoI which made us eligible for certain benefits, such as, inclusion of offshore issuance of bonds/ notes of USD 500 Million and above in the Morgan Stanley Capital International Emerging Markets Bond Index. Rating agencies factor our strategic importance to the MoR due the ownership by the GoI and business with only the MoR and other entities owned by the MoR which helped us obtain credit rating at par with sovereign ratings from domestic and international credit rating agencies. We believed that these factors enabled our Company to borrow at competitive rates and terms. In terms of the extant SEBI ICDR Regulations, the minimum public shareholding must be 25% within three years of listing. Following completion of the initial public offering by our Company, the cost of borrowings of our Company may be affected due to change in risk perception of the investors and rating agencies and non-inclusion of our bonds in the Morgan Stanley Capital International Emerging Market Bond Index which may affect our results of operations and financial position.

17. Our Company is subject to supervision and regulation by the RBI, as an NBFC-ND-SI and Infrastructure Finance Company and other regulatory authorities and changes in the RBI's regulations and other regulations, and the regulation governing our Company or the industry in which our Company operates could adversely affect our business.

We are registered with the Reserve Bank of India as a NBFC (Systematically Important) and are classified under the category of an "Infrastructure Finance Company" under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, we are regulated principally by the RBI and are subject to the RBI's guidelines on the regulation of the NBFC-ND-SIs, which includes, among other things, matters related to capital adequacy, exposure and other prudential norms. The RBI also regulates the credit flow by banks to NBFC-ND-SIs and provides guidelines to commercial banks with respect to their investment and credit exposure norms for lending to the NBFC-ND-SIs.

Earlier, NBFCs which were government companies in terms of the Companies Act, 2013, were exempt from the prudential norms as prescribed by the RBI for NBFCs. This exemption has since been withdrawn with effect from May 31, 2018. However, the RBI has granted exemption to our Company from asset classification, provisioning and exposure norms to the extent of its exposure to the MoR. Further, we have been granted exemption by the RBI from credit concentration norms to the extent of 100% of our owned funds for our exposure to Railway entities in which the ownership of the State/Central Government is minimum 51%. Accordingly, our Company has been adhering to the prudential norms prescribed by the RBI for NBFC-ND-SI except its exposure to sovereign, i.e. the MoR. Further, we have decided to follow the asset classification and provisioning norms as provided by the RBI for loans/ leases/ advances to entities other than Indian Railways. Further our company is subject to reporting obligations to the RBI.

The RBI's regulation of NBFC-ND-SIs may change in the future which may require us to restructure our activities, incur additional costs or could otherwise adversely affect our business and financial performance. For instance, the RBI has introduced the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016, which are applicable to an NBFC-ND-SI. In order to provide enhanced control, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented.

There can be no assurance that the RBI and/ or the GoI will not implement further regulations or policies, including legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that may have an adverse impact on NBFC-ND-SIs. We cannot assure you that we will continue to remain exempt from capital adequacy and other prudential norms. Any change in the rules applicable to us as an NBFC-ND-SI may adversely affect our business, financial condition and results of operations.

18. Our statutory auditors have made certain emphasis of matters in the audit reports and observations in the report on 'Other Legal and Regulatory Requirements' relating to our historical audited financial statements and their examination report on the Financial Information which may affect our future financial results.

The Statutory Auditors have made certain emphasis of matters in the audit reports for the year ended March 31, 2022. These are in relation to reconciliation and confirmation of the 'amounts payable to or receivable to MOR– Leased Assets'.

There can be no assurance that our statutory auditors will not include such emphasis of matters in the audit reports or such observations in their report on 'Other Legal and Regulatory Requirements' relating to our audited financial statements in the future, or that such emphasis of matters and observations will not affect our financial results in future fiscal periods. Investors should consider these remarks in evaluating our financial condition, results of operations and cash flows.

19. The success of our business operations is dependent on our senior management team and Key Management Personnel as well as our ability to attract, train and retain employees.

As of March 31, 2022, we had 37 permanent employees. The continued success of our business operations is attributable to our senior management team and Key Management Personnel. We believe that the experience of our senior management team has enabled us to experience consistent growth and profitability as well as maintain a robust liquidity and capital position. Our ability to sustain our growth depends upon our ability to attract and retain key personnel, developing managerial experience to address emerging business and operating challenges. Considering the small size of our management team, our ability to identify, recruit and retain our employees is critical.

20. Our business, financial condition and results of operations may be materially adversely affected by global health epidemics, including the recent COVID-19 outbreak, and the continuing effect of the same cannot be predicted.

An outbreak of a novel strain of coronavirus disease 19 (“COVID-19”), was recognised as a pandemic by the World Health Organization, on 11 March 2020. Governments and municipalities across the world instituted measures in an effort to control the spread of COVID-19, including lockdowns, quarantines, shelter-in-place orders, school closings, travel restrictions, and closure of non-essential businesses. By the end of March, the macroeconomic impacts became significant, exhibited by, among other things, a rise in unemployment and market volatility.

The rapid shift to a remote working environment creates inherent productivity, connectivity, and oversight challenges. Governmental restrictions have been inconsistent and it is not clear when a return to worksite locations or travel will be permitted or what restrictions will be in place in those environments. The extent and/ or duration of ongoing workforce restrictions and limitations could impact our ability to comply with various reporting requirements to the regulators in a timely manner, among others. In addition, the changed environment under which we are operating could have an impact on its internal controls over financial reporting as well as its ability to meet a number of its compliance requirements in a timely or quality manner.

On account of COVID-19, the operations of Indian Railways were suspended. The operations were subsequently resumed in a phased manner. The lockdown imposed by the Government of India hampered the activities of the Indian Railways, the development of rolling stock assets and led to delays in development of Project Assets. If the COVID-19 outbreak progresses in ways that continue to disrupt our operations or the operations of the Indian Railways including through lockdowns and limited operations and access to business resources, such disruption may impact the growth rate of the Indian Railways and its consequent demand for funding. Accordingly, this would also materially negatively affect our operating results for Fiscal 2021 and subsequent periods.

With the outbreak of COVID-19, international stock markets began to reflect the uncertainty associated with the slow-down in the global economy. Reduced levels of international travel experienced since the beginning of January, large declines in oil prices and the significant decline in the Dow Jones Industrial Average at the end of February and beginning of March 2020 were largely attributed to the effects of COVID-19. In addition, the widespread lockdowns implemented by various countries since March 2020 had further slowed-down the global economy and disrupted daily operations of most companies. If the spread of COVID-19 continues to limit the level of economic activity globally and in particular in India, this likely would negatively affect our operating results, cash flow and business.

Further, our ability to ensure the safety of its workforce and continuity of operations while conforming with measures implemented by the central and state governments in relation to the health and safety of our employees may result in increased costs. For instance, a number of our employees contracted COVID-19. In the event other employees or members of our management team contract(s) COVID-19, its operations may be adversely affected. Further, in the event any of our employees’ contract COVID-19, we may be required to quarantine our employees and shut down our office, as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of the Issuer’s offices and impact the well-being of our employees.

The ultimate impact of such a pandemic will depend on a number of factors, many of which are outside our control. These factors include the duration, severity and scope of the pandemic, the impact of the pandemic on economic activity in India and globally, the eventual level of infections in India and the impact of any actions taken by governmental bodies or health organisations (whether mandatory or advisory) to combat the spread of the virus.

21. Our inability to maintain Liquidity Coverage Ratio (“LCR”) as prescribed in the ‘Liquidity Management Framework’ issued by the RBI for NBFCs with effect from December 1, 2020 may subject to us penalties thereby adversely affecting our financial performance and business operations.

The RBI has introduced the ‘Liquidity Management Framework’ which inter-alia mandates all the deposit accepting NBFCs irrespective of their asset size and non-deposit accepting systematically important NBFCs with asset size of ₹ 100 billion and above, to maintain a liquidity buffer in the form of LCR representing high liquid assets from December 1, 2020. In terms of RBI notification titled “Liquidity Risk Management Framework for Non-Banking Financial

Companies and Core Investment Companies” dated November 4, 2019, such NBFCs are initially required to maintain a minimum LCR at 50% of the net cash flows over the next 30 calendar days which will then progressively increase to 100% by December 1, 2024. At present IRFC is exempted from applicability of Liquidity Coverage Ratio norms. However, in future if this exemption is withdrawn then we will have to comply with the aforesaid requirements.

22. We may fail to obtain certain regulatory approvals in the ordinary course of our business in a timely manner or at all, or to comply with the terms and conditions of our existing regulatory approvals and licenses which may have a material adverse effect on the continuity of our business and may impede our effective operations in the future.

NBFCs in India are subject to strict regulation and supervision by the RBI. We require certain regulatory approvals, sanctions, licenses, registrations and permissions for operating and expanding our business. In particular, we require approval from RBI for our funding activities and are also required to obtain a loan registration numbers from the RBI in relation to our external commercial borrowings. We may not receive or be able to renew such approvals in the time frames anticipated by us, or at all, which could adversely affect our business. If we do not receive, renew or maintain the regulatory approvals required to operate our business it may have a material adverse effect on the continuity of our business and may impede our effective operations in the future. Further, the approvals that we have obtained stipulate certain conditions requiring our compliance. If we fail to obtain any of these approvals or licences, or renewals thereof, in a timely manner, or at all or fail to comply with the conditions our business may be adversely affected.

In addition to the numerous conditions required for the registration as a NBFC with the RBI, we are required to maintain certain statutory and regulatory approvals for our business. In the future, we will be required to obtain new approvals for any proposed operations. There can be no assurance that the relevant authorities will issue any of such approvals in the timeframe anticipated by us or at all. Failure by us to obtain the required approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

There may be future changes in the regulatory system or in the enforcement of the laws and regulations including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, or exchange controls, that could have an adverse effect on non-deposit taking NBFCs. In addition, we are required to make various filings with the RBI, the ROC and other relevant authorities pursuant to the provisions of RBI regulations, the Companies Act and other Regulations. If we fail to comply with these requirements, or a regulator claims we have not complied with such requirements, we may be subject to penalties. Moreover, these laws and regulations can be amended, supplemented or changed at any time such that we may be required to restructure our activities and incur additional expenses in complying with such laws and regulations, which could materially and adversely affect our business. In addition, any historical or future failure to comply with the terms and conditions of our existing regulatory or statutory approvals may cause us to lose or become unable to renew such approvals.

23. Post IPO the GoI will continue to retain majority shareholding in the company, which will allow it to exercise significant influence over the company. Further, the GoI could require the company to take actions aimed at serving the public interest, which may not necessarily be profitable or financially feasible.

Post IPO, the GoI controls 86.36% of our paid-up Equity Share capital. Accordingly, the GoI will continue to exercise significant influence over our business policies and affairs and all matters requiring shareholder approval, including the composition of our Board, the adoption of amendments to our Articles of Association, the approval of mergers, strategic acquisitions and joint ventures and the sale of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditures. Further, the President of India may from time-to-time issue directions as he may consider necessary in regard to the exercise and performance of the functions of our Company in matters involving national security or substantial public interest.

As a result of controlling ownership by the GoI, the company is required to adhere to certain restrictions and may not be able to diversify its borrowing portfolio by issuing different instruments without the prior approval of the GoI. There can be no assurance that the GoI will grant us such approvals in the future. The GoI will retain control over the decisions requiring adoption by the company’s shareholders acting by a simple majority. This concentration of ownership may also delay, defer or even prevent a change in its control and may make some transactions more difficult or impossible without the support of the GoI. The interests of the GoI with respect to such matters and the factors that it will take into account when exercising its voting rights may not be consistent with and may conflict with the interests of its other shareholders, including the investors who purchased the Equity Shares in initial public offering.

Pursuant to the company’s Articles of Association, the GoI may, from time to time, issue such directives or instructions as may be considered necessary in regard to the conduct of its business and affairs and may vary and annul any such directive or instruction. The GoI will have the power to elect and remove the Directors and therefore determine the outcome of most proposals for corporate action requiring approval of the Board or the shareholders, including with respect to the payment of dividends. Under the company’s Articles of Association, the GoI may issue directives with respect to the conduct of its business or its affairs or change in control or impose other restrictions.

In addition, the GoI influences the company's operations through various departments and policies. The company's business is dependent, directly and indirectly, on the policies and support of the GoI, in many significant ways, including with respect to the cost of its capital, the financial strength of the MoR, the management and growth of its business and its overall profitability. Additionally, the MoR is also significantly affected by the policies and support of the GoI. In particular, given the importance of the Indian Railways to the Indian economy, the GoI could require the company to take actions aimed at serving the public interest, which may not necessarily be profitable or financially feasible. Any such actions or directives may adversely impact the company's business, financial condition and results of operation.

24. Our indebtedness and the conditions and restrictions imposed by our financing arrangements could restrict our ability to obtain additional financing, raise capital, conduct our business and operations in the manner we desire.

Incurring indebtedness is a core requirement of the nature of our business, and a large outstanding borrowings portfolio could have significant implications on our business and results of operations. We will continue to incur additional indebtedness in the future. As of March 31, 2022, our total borrowings were Rs.3,884,166.18 million. Our indebtedness could have several important consequences, including but not limited to the following:

- a portion of our cash flows may be used towards servicing of our existing debt, which will reduce the availability of our cash flows to fund working capital and other general corporate requirements;
- our ability to obtain additional financing in the future at reasonable terms may be restricted;
- fluctuations in market interest rates may affect the cost of our borrowings, as a portion of our indebtedness is at variable interest rates; and
- there could be a material adverse effect on our business, prospects, results of operations and financial condition if we are unable to service our indebtedness or otherwise comply with financial and other covenants specified in the financing agreements.

Some of the financing arrangements entered into by us include restrictive conditions and covenants that require us to obtain lenders consents and/ or intimate the respective lenders in advance, prior to carrying out certain activities and entering into certain transactions. For instance, we are required to obtain consent from our lenders in an instance where (i) shareholding of the GoI in our Company falls below 51%; (ii) our Company effectuates a change in its capital structure; and (iii) our Company amends its charter documents. In the event that such consents or waivers are not granted to us in a timely manner or at all, and if we do not repay any such loans from lenders from which we have been unable to obtain consents by such time, we would be in breach of the relevant financing covenants.

A failure to observe the covenants under our financing arrangements or failure to obtain necessary consents may lead to the termination of our credit facilities, acceleration of amounts due under such facilities, trigger cross-default provisions and the enforcement of security provided. There can be no assurance that we will be able to persuade our lenders to grant extensions or refrain from exercising such rights which may adversely affect our operations and cash flows. As a result, we may have to dedicate a substantial portion of our cash flows from our operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. Additionally, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing or generate sufficient cash to fund our liquidity requirements. Further, as a result, the MoR may have to infuse equity or additional capital.

In addition, we also have unsecured loans which may be recalled at any time at the option of such lenders. Certain of our secured loans may also permit the lenders to recall the loan on demand. Such recalls on borrowed amounts may be contingent upon happening of an event including events beyond our control and there can be no assurance that we will be able to persuade our lenders to give us extensions or to refrain from exercising such recalls which may adversely affect our operations and cash flows.

In addition, we may need to refinance all or a portion of our debt on or before maturity. We cannot assure you that we will be able to refinance any of our debt on commercially reasonable terms or at all. Occurrence of any of the above contingencies with respect to our indebtedness could materially and adversely affect our business prospects, financial condition and results of operations.

25. The company's loan agreements in respect of certain offshore borrowings contain 'change of control' provisions that trigger mandatory prepayment in the event the shareholding of the GoI in the Company falls below 51%.

The company meets a portion of its annual borrowing target mandated by the MoR through mobilization of funds from offshore markets. The senior unsecured debt facility agreements and Euro Medium Term Note programme documents entered into by the Company contain 'change of control' clauses. The clauses state that in the event the holding of the GoI in the Company falls below 51%, the Company may be required to redeem the debt prior to maturity as a result of

such change in control.

In the event such clauses are triggered, the company may be exposed to refinancing and liquidity risks. Besides, the company has entered into derivative transactions to hedge foreign currency exchange risk and interest rate risk associated with such borrowings which may be required to be wound-up subjecting it to incur additional cost towards unwinding charges that may affect its results of operations and financial position if the company is unable to build in such costs as part of the weighted average cost of incremental borrowing which are included in the lease rentals payable by the MoR.

26. *Fluctuations in the value of the Indian Rupee against other foreign currencies may have a material adverse effect on our cost of borrowings.*

Changes in currency exchange rates influence our results of operations. A significant portion of our borrowings are denominated in currencies other than Indian Rupees, most significantly the U.S. Dollar and Japanese Yen. Significant fluctuations in currency exchange rates between the Indian Rupee and these currencies and inter-se such currencies may increase the cost of our borrowings. Although we selectively enter into hedging transactions to minimize our currency exchange risks and build in such costs in the weighted average cost of incremental borrowing which are included in the lease rentals payable by the MoR, there can be no assurance that such measures will enable us to avoid the effect of any adverse fluctuations in the value of the Indian rupee against the U.S. dollar, Japanese Yen or other relevant foreign currencies. In the event we are unable to build such costs in the weighted average cost of incremental borrowing to the MoR, our financial condition and results of operations may be adversely affected.

27. *No debenture redemption reserve will be created for the Bonds issued under this issue since as per Companies Act 2013 (Share Capital & Debentures) Rules For NBFCs registered with the RBI under Section 45-IA of the RBI (Amendment) Act, 1997, no DRR is required in the case of privately placed debenture.*

According to the Companies (Share Capital and Debentures) Rules, 2014 as amended, for NBFCs registered with the RBI under Section 45-IA of the RBI (Amendment) Act, 1997, no DRR is required in case of privately placed debentures. Therefore, creation of DRR is not envisaged against the Bonds being issued under the terms of this Private Placement Memorandum.

28. *As an NBFC, we may be subject to periodic inspections by the RBI. Non-compliance with observations made by RBI during these inspections could expose us to penalties and restrictions.*

We are subject to periodic inspections by the RBI to verify the correctness or completeness of any statement, information, or particulars furnished to the RBI for the purpose of obtaining any information or particulars which we have failed to furnish on being called upon to do so. In past inspection reports, RBI has, among other things, identified deficiencies in our systems and operations such as the information technology systems being less than adequate for the operations of our company, the company not framed a policy on the fit and proper criteria, CRO is required to develop a risk mitigation framework and risk register, the company did not have any comprehensive Risk Management Policy. we are in the process of resolving all these deficiencies to the satisfaction of the RBI. While, as on the date of this private placement memorandum, the RBI has not made any major observations against us; there can be no assurance that the RBI will not make observations in the future. Imposition of any penalty or adverse findings by the RBI during the ongoing or any future inspections may have an adverse impact on our business prospects, financial condition, and results of operations.

29. *We have experienced negative cash flows in relation to our operating activities and investment activities in recent years/ periods. If we do not generate sufficient cash flows from our operations or experience negative cash flows in the future, our results of operations, liquidity and ability to service our indebtedness and fund our operations would be adversely affected.*

The following table sets forth certain information relating to our cash flows for the periods indicated. We may, in future, experience negative operating cash flows.

	Fiscal			
	2022	2021	2020	2019
	(Rs. million)			
Net cash flow/ (used) in operating activities	(644,122.82)	(899,066.47)	(627,006.10)	(417,481.90)
Net cash flow from investment activities	(47.19)	4.23	14.70	13.10
Net cash flow from financing activities	642,663.02	902,020.35	626,968.10	417,494.50
Net cash flow/ (used) during the year	(1506.99)	2958.11	(23.30)	25.80

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially affect our ability to operate our business and implement our growth plans.

Further, we have substantial debt service obligations and contractual commitments and our lease income, available cash and borrowings may not be adequate to meet our future liquidity needs. We cannot assure you that our businesses will generate sufficient cash flow from operations such that our anticipated revenue growth will be realized or that future borrowings will be available to us under credit facilities in amounts sufficient to enable us to repay our existing indebtedness or fund our other liquidity needs. If we are unable to service our existing debt, our ability to raise debt in the future will be adversely affected which will have a significant adverse effect on our results of operations and financial condition.

30. We have decided to exercise the option under section 115 BAA of the Income Tax Act, 1961 and have not made any provision for tax for the current Fiscal while foregoing allowances such as unutilised and unexpired MAT credits of the earlier years exposing us to higher tax provisions if the provisions of section 115BAA of the Income Tax Act, 1961 are amended.

We have decided to exercise the option permitted under section 115 BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated September 20, 2019. In terms of the aforesaid notification, companies exercising the option under section 115 BAA will be subject to reduced corporate tax rate of 22% (effective tax rate 25.17% after surcharge and cess). However, certain exemptions/ deductions will have to be foregone. Since our Company's taxable income under normal assessment is nil, we would not be required to pay any tax on exercising the option to adopt section 115BAA, we would also be outside the ambit of section 115JB of the Income Tax Act, 1961. Till now, the Company was paying Minimum Alternate Tax under the provisions of section 115 JB of the Income Tax Act, 1961. In the event of Company has taxable income under normal assessment in future, we will not be able to avail the foregone MAT credit, leading to higher incidence of tax which may adversely affect the financial performance, results of operations and financial position. Any subsequent change in the extant income tax provisions may enhance our tax liability and adversely affect our financial performance and results of operations.

31. We face competition from financial and other institutions in raising funds from the market and may not be able to raise funds on terms beneficial to us.

We face competition from financial and other institutions aiming to raise funds from the market. The market for raising funds is competitive and our ability to obtain funds on acceptable terms, or at all, will depend on various factors including our ability to maintain our credit ratings. In addition, since we are a non-deposit accepting NBFC, we may have restricted access to funds in comparison to banks and deposit taking NBFCs. Our primary competitors are public sector undertakings, public sector banks, financial institutions and other NBFCs. In the event that the terms and conditions of the debt instruments offered by such institutions are more attractive than those offered by us, we may not be able to raise debt from the market to the extent and on terms and conditions beneficial to us. If we are unable to raise such debt, it would lead to an increase in our cost of borrowings and thus, potentially affect our financial condition and results of operations.

32. We have in this PPM included certain non-GAAP financial measures and certain other selected statistical information related to our operations and financial performance. These non-GAAP measures and statistical information may vary from any standard methodology that is applicable across the financial services industry, and therefore may not be comparable with financial or statistical information of similar nomenclature computed and presented by other financial services companies.

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this section and elsewhere in this PPM. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. We have also included in this PPM, financial information, including, AUM, net gearing ratio and Cost of Borrowings that may be different from those followed by other financial services companies. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other NBFCs and financial services companies.

33. We have certain contingent liabilities and commitments, and any crystallization of our contingent liabilities and commitments may adversely affect our financial condition.

Our Financial Statements disclosed the following contingent liabilities as per Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets:

- As of March 31, 2022, claims against our Company not acknowledged as debts (Claims by bondholders in the consumer/ civil courts) amounted to Rs.4.20 million.
- Claims against our Company not acknowledge as debt – relating to service matter pending in the Supreme Court - amount not ascertainable.
- The procurement/ acquisition of assets leased out by our Company to the Indian Railways is done by MoR. As per the lease agreements entered into between our Company and the MOR, the sales tax/ value added tax liability, if any, on procurement/ acquisition and leasing is recoverable from the MOR.
- Director-General of GST Intelligence (DGGI), Chennai Zonal unit has served a show cause notice dated 16-4-2019 on the company alleging contravention of the provision of sec 67,68 and 70 of the Finance Act, 1994 by the company and as to why service tax of Rs26,537.65 million along with interest and penalty be not demanded from the company. The company has submitted reply against the Show Cause notice stating that there is no contravention of the provision of any of the above-stated section of the Finance Act, 1994. Against the reply given by the company, vide letter dt 21-10-20, Commissioner, CGST, Delhi East, seeking comments given by the DGGI, Chennai Zonal unit and the company filed the counter comments to the department and the company is not liable to pay the tax. However, if any liability arises that would be recoverable from the Ministry of Railways, Government of India.
- The disputed demand of tax including interest thereon for the AY 2015-16 was Rs. 9.48 million. Against the said demand, the Company has filed a rectification application u/s 154. Based on the decisions of the Appellate Authority in similar matters and interpretation of relevant provisions, the Company is confident that the demands will be either deleted or substantially reduced, and accordingly, no provision is considered necessary. However, the said demand of Rs.9.48 million has been adjusted by the department, out of the refund to IRFC for the AY 2016-17.
- The income tax assessment of the Company has been completed up to the AY 2019-20. During the year, an intimation u/s 143(1) for FY 2018-19 was received from the CPC. In the said intimation, TDS credit has been short granted by Rs.1502.46 million despite it appearing in Form 26AS. Further, the book profit has been increased by Rs.1,462.42 million without any reason and a demand of additional tax and interest thereon has been raised. The demand of Rs.2,043.26 million has been adjusted against the refund claimed for AY 2020-21. Against the said demand issued by the CPC u/s 143 (1), an appeal was filed at CIT (A) on 28 January 2022 for consideration of TDS credit and removal of additional demand, and also rectification application u/s 154 was filed on 1 February 2022 for consideration of TDS credit. Pending disposal of the appeal, management is of the view that no provision is required.

In the event that any of these contingent liabilities materialize, the Issuer's business prospects, financial condition and results of operations may be adversely affected.

34. We may not be able to adequately protect our intellectual property rights.

Our ability to compete effectively depends in part upon protection of our intellectual property rights. Currently, we have registered our logo “”, and slogans, “Bhavishya Path Par” and “Future on Track” slogans under class 36 of the Trade Marks Act. Even though we has obtained registration for these trademarks, we may not always be successful in safeguarding the same from infringement or passing off. Additionally, there can be no assurance that we will be able to effectively recover damages for any infringement of our trademarks through legal proceedings. Further, there can be no assurance that we will be able to renew our existing trademark registrations after expiry. To the extent we are unable to effectively protect our intellectual property, our business and goodwill may be adversely affected.

35. Our financial performance may be affected in the event of any delay or default by the MoR relating to the payment of lease rentals and / or other payments that are due to our Company under the terms of the Standard Lease Agreement.

Under the terms of the Standard Lease Agreement, our Company is entitled to receive lease rentals (including the value of the Rolling Stock Assets/Project Assets leased by us to the MoR in the relevant fiscal year) and/ or certain other payments due to our Company as specified under the Standard Lease Agreement. Under the current provisioning norms as specified by RBI, and pursuant to the exemption granted by RBI by way of its letter dated December 21, 2018, our Company is exempt from the provisioning norms to the extent of our direct exposure to the sovereign. Pursuant to the Standard Lease Agreement, the MoR currently pays the semiannual lease rents in advance. The Standard Lease Agreement does not include any provision where our Company can claim any additional amount from the MoR in the event of a delay by the MoR towards its payment obligations. Our business, financial performance and cash flows may be adversely affected in the event of any delay or default by the MoR relating to the payment of lease rentals and/ or other payments under the terms of the Standard Lease Agreement.

36. *Liabilities arising due to interpretational differences of provisions of GST law on implementation and execution of contracts for construction of railway projects directly between us and railway contractors would devolve on us. In case we are unable to recover such liabilities from the MoR our business operations and financial condition may be adversely affected.*

Our Company has implemented various provisions of the Central Goods and Services Tax Act, 2017, State Goods and Services Tax Act, 2017 and Integrated Goods and Services Tax Act, 2017. Our company's interpretation of applicable provisions may be different from the interpretation of Revenue Department / GST Department of the Government which may result in increase in tax liabilities and interest and penalties thereon. As per the terms of the Standard Lease Agreement, indirect taxes, duties and cess are recoverable from them. Furthermore, for construction of railway projects funded by us, up till now, the Ministry of Railways was our agent for appointment of contractors, overseeing the construction and progress of projects, payment to contractors and other related activities till the completion and leasing of projects to the Ministry of Railways. We were the undisclosed principal. The construction contracts for projects funded by the Issuer were executed between the Ministry of Railways and the railway contractors. However, with effect from 1 May 2020, our company is the disclosed principal and the Ministry of Railways will act as the agent for all construction contracts for railway projects funded by it. The new contracts would be executed between our Company and railway contractors. The contracts for the existing projects funded by us have been novated in the name of our Company. Our company has also obtained GST registration in certain states where it has funded such projects and are under implementation. On account of being the principal under such contracts, any civil and criminal liability arising out of disputes with contractors would devolve directly on us. Our company would also be liable for interest and penalties, if any, due to non-compliance of applicable GST and income tax laws on payment to railway contractors by the Ministry of Railways out of funds transferred by our company to them.

37. *We have entered into certain transactions with related parties in the past and any such transactions or any future related party transactions may potentially involve conflicts of interest, which may adversely affect our business, prospects, financial condition, and results of operation.*

We have entered into certain transactions with related parties, including our Promoter and our Directors, and may continue to do so in future. For the Fiscal 2022, 2021 and 2020, the total amount of such related party transactions was Rs. 44,37,512.21 million, 38,04,873.30 million and Rs.28,64,950.60 million respectively. While we believe that all such transactions are in compliance with applicable laws and are on arms-length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties, or that we will be able to maintain existing terms in cases where the terms are more favourable than if the transaction had been conducted on arm's length basis. It is likely that we will enter into other related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our business prospects, financial condition and results of operations, including because of potential conflicts of interest or otherwise.

38. *We have not registered the title documents of office premises and accordingly the title to our office premises may be imperfect.*

We have entered into agreements of sale dated April 11, 2002 and November 21, 2002 in respect of office premises located at NBCC place. As per the terms of the sale agreement we have possession of said office premises. However, execution of sale deed is pending due to necessary permission of Government required to NBCC to execute the sale deed.

39. *Insurance obtained by us may not adequately protect us against all losses and could adversely affect our business prospects, financial condition and results of operations.*

Our insurance policies may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. There can, however, be no assurance that the terms of our insurance policies will be adequate to cover any loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that our company will not disclaim coverage as to any future claim. A successful assertion of one or more large claims against our company that exceeds our company's available insurance coverage or changes in our company's insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business prospects, financial condition and results of operations.

40. *We utilize the services of certain third parties for our operations. Any deficiency or interruption in their services could adversely affect our business and reputation.*

We engage third party service providers from time to time for services including internal auditing, accounting functions, housekeeping, security and secretarial services. Our ability to control the manner in which services are provided by third party service providers is limited and we may be held liable on account of any deficiency of services on the part

of such service providers. We cannot assure you that we will be successful in continuing to receive uninterrupted and quality services from our third-party service providers. Any disruption or inefficiency in the services provided by our third-party service providers could affect our business and reputation.

41. Our ability to pay dividends in the future will depend upon future earnings, guidelines issued by the DPE, financial condition, cash flows, working capital requirements and capital expenditures.

As per the CPSE Capital Restructuring Guidelines, all central public sector enterprises are required to pay a minimum annual dividend of 30.00% of profit after tax or 5.00% of the net-worth, whichever is higher, subject to the maximum dividend permitted under the legal provisions and the conditions mentioned in the aforesaid guidelines. However, an exemption from paying dividends may be granted by the DIPAM in accordance with the CPSE Capital Restructuring Guidelines, upon application to its Administrative Department to those CPSEs fulfilling certain criteria including having a high financial gearing (leverage ratio). Accordingly, whenever required our Company writes to the MoR for seeking exemption from the CPSE Capital Restructuring Guidelines and requesting the MoR to refer this exemption to DIPAM. Similar representations have also been made by our Company to DIPAM.

The amount of future dividend payments, if any, will depend upon a number of factors, including but not limited to our future earnings, guidelines issued by the DPE, financial condition, financial gearing, cash flows, working capital requirements, contractual obligations, applicable Indian legal restrictions and capital expenditures. In addition, our ability to pay dividends may be impacted by a number of factors, including results of operations, financial conditions, contractual restrictions and restrictive covenants under the loan or financing agreements our Company may enter into to finance our fund requirements for our business activities. There can be no assurance that we will be able to pay dividends in the future.

42. System failures or inadequacy and security breaches in computer systems may adversely affect our business.

In the course of our business operations, we collect, process, store, use and otherwise have access to a large volume of information. Our computer networks and IT infrastructure may be vulnerable to computer hackers, computer viruses, worms, malicious applications and other security problems resulting from unauthorized access to, or improper use of, such networks and IT infrastructure by our employees, third-party service providers or even independent third parties. In the past, we experienced an instance of a cyber security incident in relation to our website that required us to temporarily take down our website. Although our security systems have anti-virus software, such malicious attacks or malware related disruptions may jeopardize the security of information stored in and transmitted through our IT infrastructure and computer systems. We may therefore be required to incur significant expenses to protect against the threat of such security breaches and/ or to alleviate problems caused by such breaches. Unauthorized access and malware sabotage techniques and systems change frequently and generally are not recognized until launched against a target. We may be unable to anticipate these techniques or implement adequate preventative measures. Even if we anticipate these cyber security incidents, we may not be able to prevent or counteract such attacks or control the impact of such attacks in a timely manner or at all.

Any security breach, data theft, unauthorized access, unauthorized usage, virus or similar breach or disruption could result in loss or disclosure of confidential information, damage to our reputation, litigation, regulatory investigation or other liabilities. Further, we could be adversely affected if additional legislation or amendments to existing regulations are introduced to require changes in our business practices or if such legislation or regulations are interpreted or implemented in ways that adversely affect our business, financial condition and results of operations.

43. Some of the information disclosed in this PPM is based on information from industry sources and publications which have not been independently verified by us.

Some of the information disclosed in this PPM is based on information from the Ministry of Railways and certain other industry publications and sources, which have not been verified by us independently. Industry sources and publications generally state that the information contained therein has been obtained from sources considered to be reliable, but their accuracy, adequacy or completeness are not guaranteed and their reliability cannot be assured. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Accordingly, investors should not place undue reliance on, or base their investment decision on this information.

44. We may not be able to detect money-laundering and other illegal or improper activities fully or on a timely basis, which could expose us to additional liability and harm our business or reputation.

We are required to comply with applicable anti-money-laundering and anti-terrorism laws and other regulations in India. Although we believe that we have adequate internal policies, processes and controls in place to prevent and detect any anti-money laundering activity, there can be no assurance that we will be able to fully control instances of any potential

or attempted violation by other parties and may accordingly be subject to regulatory actions including imposition of fines and other penalties.

- 45. We rely on borrowings from institutional investors and such borrowings are subject to exposure norms prescribed by regulatory authorities and the trading in our non-convertible debentures and bonds may be infrequent, limited or sporadic, which may affect our ability to raise debt financing in future.***

We rely on borrowings from institutional investors through issuance of bonds on a private placement basis. The fact that such institutions are subject to single party, group and sectoral exposure limits imposed by the regulatory authorities, our ability to raise funds from these institutions may be limited in future. In addition, our bonds and non-convertible debentures are listed on the debt segment of the BSE and NSE. Trading in our debt securities has been limited and we cannot assure you that the debt securities will be frequently traded on the BSE or NSE or that there would be any market for our debt securities. Further, we cannot predict if and to what extent a secondary market may develop for the debt securities or at what price such debt securities will trade in the secondary market or whether such market will be liquid or illiquid.

EXTERNAL RISK FACTORS

Risks Relating to India and Other External Risk Factors

- 46. Significant differences exist between Ind AS and other accounting principles, such as US GAAP and IFRS, which may be material to investors' assessments of our Company's financial condition.***

Our financial statements are prepared and presented in conformity with Ind AS. Ind AS differs in certain significant respects from U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles or U.S. GAAP, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements, and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar.

- 47. Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.***

Our results of operations and financial condition depend significantly on worldwide economic conditions and the health of the Indian economy. Various factors may lead to a slowdown in the Indian or world economy which in turn may adversely impact our business, prospects, financial performance and operations.

We mainly derive revenue from our operations in India and the performance and growth of our business is significantly dependent on the performance of the Indian economy. There have been periods of slowdown in the economic growth of India. Demand for our products may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the countries is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, financial condition and cash flows. Conditions outside India, such as a slowdown or recession in the economic growth of other major countries, especially the United States, and emerging market conditions in Asia also have an impact on the growth of the Indian economy. Additionally, an increase in trade deficit could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our business. A loss of investor confidence in other emerging market economies or any worldwide financial instability may adversely affect the Indian economy, which could materially and adversely affect our business and results of operations and the market price of the Equity Shares. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues.

- 48. Natural disasters, acts of war, political unrest, epidemics, terrorist attacks or other events which are beyond our control, may cause damage, loss or disruption to our business and have an adverse impact on our business, financial condition, results of operations and growth prospects.***

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel

and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India or countries to who we export our products could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares. A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 virus. A worsening of the current outbreak of COVID-19 pandemic or future outbreaks of COVID-19 virus or a similar contagious disease could adversely affect the Indian economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business.

49. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in global financial markets across the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cashflows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Following the United Kingdom's exit from the European Union ("Brexit"), there remains significant uncertainty around the terms of the UK's future relationship with the European Union and, more generally, as to the impact of Brexit on the general economic conditions in the United Kingdom and the European Union and any consequential impact on global financial markets. For example, Brexit could give rise to increased volatility in foreign exchange rate movements and the value of equity and debt investments.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations.

50. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects, results of operations and, financial condition.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The Finance Act, 2020 ("Finance Act"), has, amongst others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax ("DDT"), will not be payable in respect of dividends declared, distributed or paid by a domestic company after 31 March 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident and likely be subject to tax deduction at source. The company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such Dividend.

In addition, we are subject to tax related inquiries and claims. We may be particularly affected by claims from tax authorities on account of income tax assessment, service tax and GST that combines taxes and levies by the central and state governments into one unified rate of interest with effect from July 1, 2017.

For instance, the Finance Act, 2019 stipulates any sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act, 2019 has also clarified that the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the

consideration amount. These amendments were notified on December 10, 2019 and have come into effect from July 1, 2020. As such, there is no certainty on the impact that the Finance Act, 2019 may have on our company's business and operations.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and group structure may result in it being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specified terms of any such laws or regulations will be or whether, if at all, any laws or regulations would have an adverse effect on our business.

51. Difficulties faced by other financial institutions or the Indian financial sector generally could cause our business to suffer.

We are exposed to the risks of the Indian financial system. The financial difficulties faced by certain Indian financial institutions could materially adversely affect our business because the commercial soundness of many financial institutions may be closely related as a result of credit, trading, clearing or other relationships. Such "systemic risk", may materially adversely affect financial intermediaries, such as clearing agencies, banks, securities firms and exchanges with which we interact on a daily basis. Any such difficulties or instability of the Indian financial system in general could create an adverse market perception about Indian financial institutions and banks and materially adversely affect our business. For instance, towards the end of 2018, defaults in debt repayments by a large NBFC in India, Infrastructure Leasing & Financial Services Limited, which had a significant shareholding from government-owned institutions, led to heightened investor focus around the health of the broader NBFC sector as well as their sources of liquidity. This has led to some tightening in liquidity available to certain NBFCs and, as a result, it has become more difficult for certain NBFCs to renew loans and raise capital in recent times. If any event of similar nature or magnitude affecting the market sentiment surrounding the sector occurs again in the future, it may result in increased borrowing costs and difficulties in accessing cost-effective debt for us. Our cost of borrowings is sensitive to interest rate fluctuations which exposes us to the risk of reduction in spreads, on account of volatility in interest rates. In addition, our transactions with these financial institutions expose us to various risks in the event of default by a counterparty, which can impact us negatively during periods of market illiquidity.

52. Investors may not be able to enforce a judgment of a foreign court against us.

We are incorporated under the laws of India and all of our Directors and key management personnel reside in India. The majority of our assets, and the assets of certain of our Directors, key management personnel and other senior management, are also located in India. Where investors wish to enforce foreign judgments in India, they may face difficulties in enforcing such judgments. India exercises reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions. In order to be enforceable, a judgment obtained in a jurisdiction which India recognises as a reciprocating territory must meet certain requirements of the Civil Procedure Code, 1908 (the "CPC"). Further, the CPC only permits enforcement of monetary decrees not being in the nature of any amounts payable in respect of taxes or, other charges of a similar nature or in respect of a fine or other penalty. Judgments or decrees from jurisdictions not recognised as a reciprocating territory by India, whether or not predicated solely upon the general laws of the non-reciprocating territory, cannot be enforced or executed in India. Even if a party were to obtain a judgment in such a jurisdiction, it would be required to institute a fresh suit upon the judgment in India and would not be able to enforce such judgment by proceedings in execution. Further, the party which has obtained such judgment must institute the new proceedings within three years of obtaining the judgment. As a result, the investor may be unable to: (i) effect service of process outside of India upon us and such other persons or entities; or (ii) enforce in courts outside of India judgments obtained in such courts against us and such other persons or entities.

It cannot be assured that a court in India would award damages on the same basis as a foreign court if an action is brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if it views the amount of damages awarded as excessive or inconsistent with Indian practice. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI to repatriate any amount recovered pursuant to the execution of such foreign judgment.

53. Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

The Indian economy has had sustained periods of high inflation in the recent past which has contributed to an increase in interest rates. High fluctuation in inflation rates may make it more difficult for us to accurately estimate or control our costs. Continued high rates of inflation may increase our expenses related to salaries or wages payable to our employees or any other expenses. There can be no assurance that our revenue will increase proportionately corresponding to such inflation. Accordingly, high rates of inflation in India could have an adverse effect on our profitability and, if significant, on our financial condition.

RISKS RELATING TO THE BONDS

54. There is no guarantee that the Bonds issued pursuant to this Issue will be listed on NSE and BSE in a timely manner, or at all.

In accordance with Indian law and practice, permissions for listing and trading of the Bonds issued pursuant to this Issue will not be granted until the relevant stock exchanges as well as SEBI approve of the listing, which will be available only after an updated document is accordingly filed with the relevant authorities at the time of such listing. Approval for listing and trading will require all relevant documents authorizing the issuing of Bonds to be submitted. There could be a failure or delay in listing the Bonds on the NSE and/or BSE. If permission to deal in and for an official quotation of the Bonds is not granted by the Stock Exchanges, the Bonds will remain unlisted.

55. There has been only a limited trading in the Bonds of such nature and the same may not develop in future, therefore the price of the Bonds may be volatile.

There has been only a limited trading in bonds of such nature in the past. Although the Bonds shall be listed on NSE and BSE, there can be no assurance that a public market for these Bonds would be available on a sustained basis. The liquidity and market prices of the Bonds can be expected to vary with changes in market and economic conditions, our financial condition and prospects and other factors that generally influence market price of Bonds. Such fluctuations may significantly affect the liquidity and market price of the Bonds, which may trade at a discount to the price at which the Bonds are being issued.

Further, the price of our Bonds may fluctuate after this Issue due to a wide variety of factors, including:

- Changes in the prevailing interstate;
- Volatility in the Indian and global securities markets;
- Our operational performance, financial results and our ability to expand our business;
- Developments in India's economic liberalization and deregulation policies;
- Changes in India's laws and regulations impacting our business;
- Changes in securities analysts' recommendations or the failure to meet the expectations of securities analysts;
- The entrance of new competitors and their positions in the market; and
- Announcements by our Company of its financial results.

We cannot assure that an active trading market for our Bonds will be sustained after this Issue, or that the price at which our Bonds are initially offered will correspond to the prices at which they will trade in the market subsequent to this issue.

56. Foreign Investors, including Eligible NRIs, FIIs and Eligible QFIs subscribing to the Bonds are subject to risks in connection with (i) exchange control regulations, and, (ii) fluctuations in foreign exchange rates.

The Bonds will be denominated in Indian rupees and the payment of interest and redemption amount shall be made in Indian rupees. Various statutory and regulatory requirements and restrictions apply in connection with the Bonds held by Eligible NRIs, FIIs and Eligible QFIs ("Exchange Control Regulations"). Amounts payable to Eligible NRIs, FIIs and Eligible QFIs holding the Bonds, on redemption of the Bonds and/or the interest paid/payable in connection with such Bonds or the amount payable on enforcement of security would accordingly be subject to prevailing Exchange Control Regulations in case of applicants who have invested on repatriation basis.

Any change in the Exchange Control Regulations may adversely affect the ability of such Eligible NRIs, FIIs and Eligible QFIs to convert such amounts into other currencies, in a timely manner or at all. Further, fluctuations in the exchange rates between the Indian rupee and other currencies could adversely affect the amounts realized by Eligible NRIs, FIIs and Eligible QFIs on redemption or payment of interest on the Bonds by us. Additionally, our Bonds are quoted in Indian rupees in India and Investors may be subject to potential losses arising out of exchange rate risk on the

Indian rupee and risks associated with the conversion of Indian rupee proceeds into foreign currency. Investors are subject to currency fluctuation risk and convertibility risk since the Bonds are quoted in Indian rupees on the Indian stock exchanges on which they are listed. Returns on the Bonds will also be paid in Indian rupees. The volatility of the Indian rupee against the U.S. dollar and other currencies subjects Investors who convert funds into Indian rupees to purchase our bonds to currency fluctuation risks.

57. Investor may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the Bonds.

Our ability to pay interest accrued on the Bonds and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, including our financial condition, profitability and the general economic conditions in India and the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the Bonds and/or the interest accrued thereon in a timely manner, or at all.

58. Changes in prevailing interest rates may affect the price of the Bonds.

All securities where a fixed rate of interest is offered, such as the Bonds, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e., when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon rate, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the trading price of the Bonds.

59. Any downgrading in our domestic and international credit rating of our Bonds may affect the trading price of our Bonds.

CRISIL Ratings Ltd. ("CRISIL") has accorded "CRISIL AAA/Stable" vide its letter Ref No. RL/INRAFC/292858/LTBP/0522/32679/108854839 dated May 4, 2022, ICRA Ltd. ("ICRA") vide its letter No. ICRA/Indian Railway Finance Corporation Ltd/10052022/1 dated May 10, 2022 has also assigned a credit rating of "[ICRA] AAA" with a Stable Outlook and Credit Analysis & Research Ltd. ("CARE") has accorded "CARE AAA" with a Stable Outlook vide its letter Ref No. CARE/DRO/RL/2022-23/1150 dated May 17, 2022 for the entire borrowing programme of Rs.665,000 million for FY 2022-23.

Further, international rating agencies like Japan Credit Rating Agency Limited has affirmed its BBB+ (Stable Outlook) rating on the long-term senior debts and the Japanese Yen bonds issued by the Company. Standard & Poor's, Moody's and Fitch have assigned BBB- (Stable Outlook), Baa3 (Stable Outlook) and BBB- (Stable Outlook) rating respectively to the foreign currency borrowings of the Company.

These ratings may be suspended, withdrawn or revised at any time. Any revision or downgrading in the credit rating may lower the trading price of the Bonds and may also affect our ability to raise further debt. For the rationale for these ratings by domestic Credit Rating Agencies, refer to the Annexure.

60. Payments made on the Bonds will be subordinate to certain tax and other liabilities as laid down by law.

The Bonds will be subordinate to certain liabilities preferred by law such as to claims of the Government on account of taxes, and certain liabilities incurred in the ordinary course of our transactions. In particular, in the event of bankruptcy, liquidation or winding-up, our assets will be available to pay obligations on the Bonds only after all of the liabilities that rank senior to these Bonds have been paid. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining, after paying the aforesaid senior ranking claims, to pay amounts due on the Bonds. Further, there is no restriction on the amount of debt securities that we may issue that may rank above the Bonds. The issue of any such debt securities may reduce the amount recoverable by Investors in the Bonds on our bankruptcy, winding-up or liquidation.

61. Legal investment considerations may restrict certain investments.

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) the Bonds are legal investments for it, (ii) the Bonds can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of bonds.

62. The Bonds are subject to the risk of change in-law.

The terms and conditions of the Bonds are based on Indian law in effect as of the date of issue of the relevant Bonds. No assurance can be given as to the impact of any possible judicial decision or change to Indian law or administrative practice after the date of issue of the relevant Bonds and any such change could materially and adversely impact the

value of any Bonds affected by it.

- 63. *No debenture redemption reserve will be created for the Bonds issued under this issue since as per Companies (Share Capital & Debentures) Rules, 2014, as amended (“Debentures Rules”), or NBFC’s registered with the RBI under section 45-1A of the RBI (Amendment) Act, 1997, no DRR is required in the case of privately placed debenture.***

VII. BRIEF SUMMARY OF BUSINESS/ ACTIVITIES OF ISSUER AND ITS LINE OF BUSINESS

1. OVERVIEW

The Company was incorporated on December 12, 1986 under the Companies Act as a public limited company and received its certificate for commencement of business on December 23, 1986. The GoI, Ministry of Railways, incorporated the Company as a financial arm of Indian Railways, for the purpose of raising a part of the resources necessary for meeting the developmental needs of the Indian Railways. The company is listed on NSE and BSE w.e.f. January 29, 2021. Our Promoter is the President of India, acting through the MoR which holds 86.36% of the paid-up equity share capital.

The Ministry of Corporate Affairs, through its notification dated October 8, 1993 published in the Official Gazette of India, classified the Company as a Public Financial Institution under Section 4(A) of the Companies Act (now as defined under sub-section 72 of Section 2 of the Companies Act, 2013).

The Company was registered with the RBI under Section 45-IA of RBI Act as a non-banking financial company without accepting public deposits *vide* certificate of registration dated February 16, 1998. The Company was later classified under the category “Infrastructure Finance Company” by the RBI through a fresh certificate of registration dated November 22, 2010.

The Company’s registered and corporate office is situated at Room Nos. 1316 - 1349, 3rd Floor, Hotel The Ashok, Diplomatic Enclave, 50-B, Chanakyapuri, New Delhi – 110021, India.

Due to the Company’s status as a government company, it was exempt from provisions of the RBI Act relating to the maintenance of liquid assets, the creation of reserve funds and prudential norms. However, the exemptions granted to the Govt. NBFC have since been withdrawn from May 31, 2018. Accordingly, the Company is complying with all the prudential norms applicable to NBFC-ND-SI except for its exposure to Sovereign. RBI vide its letter dated December 21, 2018 has granted exemption from Income Recognition and Asset Classification (IRAC) norms, standard asset provisioning and exposure norms to the extent of their direct exposure on the sovereign.

The primary objective of the Company is to act as a financing arm for the Indian Railways. The development of the Company’s business is dependent on the MOR’s strategy concerning the growth of the Indian Railways. (The MOR is responsible for the acquisition of rolling stock and for the improvement, expansion and maintenance of the railway infrastructure. The Company is responsible mainly for raising the finance necessary for the acquisition of rolling stock ordered by the MOR). The Company’s principal business therefore is borrowing funds from the commercial markets to finance the acquisition of new rolling stock which is then leased to the Indian Railways. For the first time during FY 2011-12, the Company was assigned the additional task of financing select capacity enhancement works of Indian Railways including doubling, electrification etc. to the tune of Rs.20,784.90 million. However, for the FY 2012-13, FY 2013-14 and FY 2014-15, no amount was mandated by MOR for funding such capacity enhancement works of Indian Railways.

For the year 2015-16, the Company was assigned the additional task of funding Railway Projects through Institutional Finance from LIC for which MoR and LIC had executed a Memorandum of Understanding (MoU) that had expired on 31st March, 2020 and could not be renewed. In terms of the MoU, LIC had committed to disburse funds to the tune of Rs.0.15 million crore over five-year period from FY 2015-16 to FY 2019-20 for funding of identified Railway Projects but LIC cumulatively has disbursed a sum of Rs.2,05,000 million. By the end of FY 2021-22, the disbursement by the Company for funding of Railway Projects has remained at Rs.1,671,524.10 million. Besides, the Company has funded National Projects to the extent of Rs.75,787.00 million. In addition to this, Company during FY 2020-21 was also given an additional mandate for funding under the head of ‘EBR-Special’ towards the developmental expenditure requirements of MoR for which company had disbursed a sum of Rs.5,16,190million.

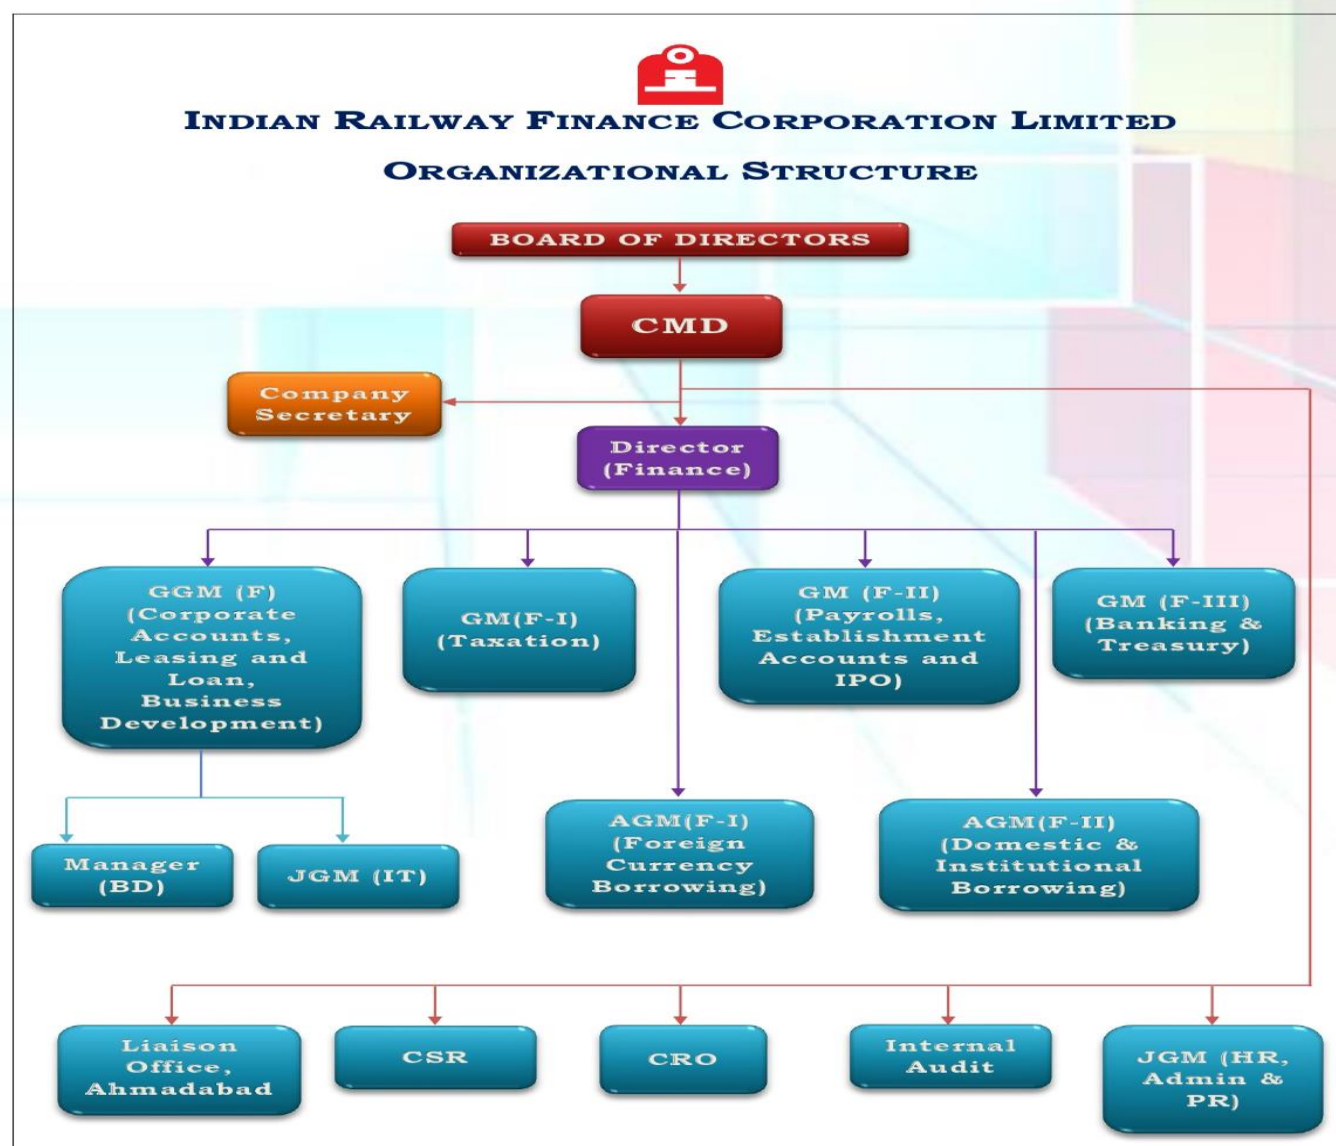

At the beginning of each Fiscal Year, the MOR notifies the Company of its financing requirements which are to be met through market borrowings. The Company then undertakes to provide finance to the Indian Railways subject to market conditions. At the end of each year, a lease agreement is drawn in relation to the rolling stock acquired by the MOR from IRFC funds during the previous year. The Lease is for a period of 30 years comprising primary lease period of 15 years followed by a secondary lease period of another 15 years. Lease rentals represent the Company’s capital recovery plus the cost plus a net interest margin. The full recovery of principal and interest takes place during the primary lease period. The Company charges a margin of 40 bps over its cost of incremental borrowings for FY 2021-22. A part of the funds so raised are also utilized for funding bankable projects (i.e. such projects or proposals that have sufficient collateral, future cash flows and high probability of success) approved by the MOR and which are executed by Rail Vikas Nigam Limited (“RVNL”). Similar to core lease transactions, the interest charged by the Company is on a cost plus margin basis. In addition, the Company has also granted loans to Railway PSUs like

Railtel Corporation of India Limited (“**RailTel**”). To the end of March, 2022, IRFC has funded rolling stock assets worth Rs.2,813,920 million. Further, it has disbursed funds to the tune of Rs.76,980 million to various railway entities.

Pending disposal of the appeal, management is of the view that no provision is required.

VIII. BRIEF HISTORY OF ISSUER SINCE INCORPORATION, DETAILS OF ACTIVITIES INCLUDING ANY REORGANIZATION, RECONSTRUCTION OR AMALGAMATION, CHANGES IN CAPITAL STRUCTURE, (AUTHORIZED, ISSUED AND SUBSCRIBED) AND BORROWINGS

1. BRIEF HISTORY OF THE ISSUER

Indian Railway Finance Corporation Limited, a Public Financial Institution was incorporated on 12th December, 1986 by the Ministry of Railways, for the purpose of raising the necessary resources for meeting the developmental needs of the Indian Railways (the “Indian Railways”). IRFC began its operations after obtaining the certificate of Commencement of Business on 23rd December, 1986. IRFC was initially set up with an Authorised Capital of Rs.2,000 million which was increased to Rs. 5000 million in 1989-90 and was further enhanced to Rs.10,000 million during the year 2007-08. During the year 2009-10, the Authorised Capital was again increased to Rs.20,000 million. And further to Rs.50,000 million in 2011-12, Rs.150,000 million in 2015-16 and to Rs.250,000 million in 2020-21 so far. Similarly, the paid-up share capital has gone up from Rs.1,000 million in 1986-88 to Rs.1,600 million during 1988-89, Rs.2,320 million in the year 1989-90, Rs.5000 million in the year 2007-08, Rs.8,000 million in 2008-09, Rs.10,910 million in 2009-10, Rs.16,020 million in 2010-11, Rs.21,020 million in FY 2011-12, Rs.23,520 million in FY 2012-13, Rs.33,520 million in FY 2013-14, Rs.35,839.60 million in FY 2014-15, Rs.45,264.60 million in FY 2015-16, Rs.65,264.60 million in FY 2016-17, Rs.93,804.60 million in FY 2018-19, Rs.118,804.60 million in FY 2019-20 and Rs.130,685.10 million in FY 2020-21.

The Company is listed on NSE and BSE w.e.f. January 29, 2021. Our Promoter is the President of India, acting through the MoR which holds 86.36% of the paid-up equity share capital. The balance sheet size of IRFC has increased consistently over the years from Rs.33,2831.70 million (as per Indian GAAP) in 2008-09 to Rs.16,14,510.40 million (as per IND-AS) in 2017-18 to Rs.20,64,382.90 million (as per IND-AS) for the year ending March 31, 2019 to Rs. 27,55,041.30 million (as per IND-AS) for the year ending March 31, 2020 and further to Rs. 44,99,802.24 million (as per IND-AS) for the year ending March 31, 2022.

IRFC's registered office is at Room Nos. 1316 – 1349, 3rd Floor, Hotel The Ashok, Diplomatic Enclave, 50-B, Chanakyapuri, New Delhi – 110021 w.e.f. 4th March, 2021. Its registration number with Registrar of Companies, NCT of Delhi & Haryana is 26363.

IRFC is registered as a Non- Banking Finance Company under section 45 IA – with the RBI, previously IRFC was not required to comply with the Reserve Bank of India's regulatory requirements on asset classification, income recognition, provisioning, and prudential exposure norms, which restrict a non-banking finance Company's maximum exposure to a sector or an entity. However, the exemptions granted to the Govt. NBFC have since been withdrawn from May 31, 2018. Accordingly, the Company is complying with all the prudential norms applicable to NBFC-ND-SI except for its exposure to Sovereign. RBI vide its letter dated December 21, 2018 has granted exemption from Income Recognition and Asset Classification (IRAC) norms, standard asset provisioning and exposure norms to the extent of their direct exposure on the sovereign.

IRFC was ranked among top ten central Public Sector Undertakings for its performance during 2001-02, 2002-03, 2003-04 and 2004-05 by the Department of Public Enterprises and has also been given an award by President of India and Prime Minister of India for these years.

Looking at the financials and Balance Sheet strength of the Company among other things, CRISIL, ICRA and CARE have accorded stand-alone rating of “CRISIL AAA/Stable” (pronounced as “CRISIL Triple A with stable outlook”), “[ICRA] AAA” (pronounced as “ICRA triple A”) and “CARE AAA” (pronounced as “triple A”) respectively to IRFC. Standard and Poor's, Moody's and Fitch Ratings the well-known international credit rating agencies have accorded IRFC rating of BBB- (Stable), Baa3 (Stable) and BBB- (Stable) respectively on long term foreign currency rating. Japanese Credit Rating Agency Limited have also assigned rating of BBB + (Stable) to the Company. The ratings assigned by the above International Credit Rating Agencies are at par with the rating assigned to the Government of India.

Since its inception, IRFC has been earning profits every year and has paid dividend of Rs.66,191 million till 31.03.2022.

2. BACKGROUND

Soon after India attained independence in 1947, Five Year Plans were implemented with the intention of establishing planned development in the Indian economy. Under the initial Five Year Plans the Government funded Indian Railways centrally through the Ministry of Finance. In 1986, following a change in Government policy, IRFC was established with the sole purpose of acting as a financial intermediary between the financial market and the Ministry of Railways (MOR) to enable the Ministry of Railways to access funds raised in the market, an activity which the Ministry of Railways could not have entered into itself as under Government policy, the Government departments other than the Ministry of Finance cannot raise money directly in the financial market. IRFC is, therefore, a dedicated funding arm of the MOR, Government of India. It has a monopoly in the business of raising funds for the Ministry of Railways since they rely solely on IRFC for external funding of its rolling stock assets and project assets.

3. OBJECTS AND PRESENT BUSINESS

The primary objective of IRFC is to act as a financing arm for the Indian Railways. The development of IRFC's business is dependent on the Ministry of Railways' strategy concerning the growth of Indian Railways. Its principal business is borrowing from the commercial markets to finance the acquisitions of the rolling stock assets which is then in turn leased to Indian Railways. The Ministry of Railways is responsible for the acquisition of rolling stock assets and for the improvement, expansion and maintenance of the railway rolling stock. IRFC is responsible only for raising the finance necessary for the acquisition of rolling stock assets ordered by the Ministry of Railways. Besides, the Company has been assigned the task of funding Railway Projects through Institutional Finance (EBR-IF) route.

At the beginning of each fiscal year, Ministry of Railways (MOR) notifies IRFC of its financing needs to be met through market borrowings. IRFC then undertakes to provide finance to Indian Railways subject to market conditions. At the end of each year, a lease agreement is drawn up to cover the capital value of the infrastructure assets acquired by MOR during the previous year. Lease rentals represent IRFC's cost plus a margin. Part of the funds so raised shall also be utilized for funding bankable projects approved by MOR and to be executed by RVNL. Debt servicing will be done from revenues generated by MOR from the projects. (As in the core lease transactions, Debt servicing will be on cost plus margin basis.)

4. PROFITABILITY AND NET INTEREST MARGINS AND PERFORMANCE DURING FINANCIAL YEAR 2021-22

Lease income from rolling stock and project assets leased to MOR represents 64.05% of IRFC's total income, the balance comes from interest on loans and deposits and amortization of Gain on Account of Securitisation. This level of revenue concentration is expected to continue, as IRFC is likely to remain focused on financing Indian Railways. Furthermore, the regulatory restrictions on IRFC's investments limit the potential for any significant change in investment income. Profit after tax for FY 2021-22 is 60,898.40 million which has registered an year to year growth of 37.90% from 44,161.30 million in FY 2020-21, 38.35% from Rs.31,921.00 million in FY 2019-20 mainly on account of higher incremental disbursement and lower operating costs.

IRFC clocked a year-to-year revenue growth of 28.71% from Rs.1,57,704.70 million for the year 2020-21 to Rs.2,02,982.68 million for the year 2021-22. The main reasons attributed to the growth in revenue are incremental leasing of rolling stock assets, lease income from project assets and additional funding of Railway Projects. On the other hand, the total expenditure has registered a growth of 25.16% from 1,13,547.30 million in FY 2020-21 due to higher interest outgo on additional borrowings, issue expenses pertaining to fresh borrowings and the expenses on CSR.

The Company has disbursed a sum of Rs.6,06,834 million for 2021-22. The cumulative funding to Railway Sector has crossed Rs.5.04 lakh crore mark. Assets Under Management stood at Rs.4,15,238 crore.

IRFC's cost-plus based lease agreement with Ministry of Railways assures a moderate net interest margin. The margin on the incremental assets leased to MOR for the last three years is as follows: -

Period	Lease pricing (IRR to the Railways)	Average cost of funds to IRFC	Margin
2019-20	7.77%	7.37%	0.40%
2020-21	7.11%	6.71%	0.40%
2021-22	7.02%	6.62%	0.40%

5. NON-PERFORMING LOANS

IRFC had no non-performing loans as at March 31, 2022. There is no precedent of Indian Railways delaying payments to IRFC. All assets leased to India Railways are standard assets. Moreover, as a result of restrictions placed by the Department of Public Sector Enterprises on investments and IRFC's own conservative guidelines, IRFC's investment portfolio is likely to remain limited in size. Therefore, overall prospects for IRFC's asset quality will be even more closely tied to its relationship with Indian Railways.

7. TAX BENEFITS UNDER SECTION 54EC OF INCOME TAX ACT, 1961

1) Where the capital gain arises from the transfer of a long-term capital asset (the capital asset so transferred being hereafter in this section referred to as the original asset) and the assessee has, at any time within a period of six months after the date of such transfer, invested the whole or any part of capital gains in the long term specified asset, the capital gain shall be dealt with in accordance with the following provisions of this section, that is to say,

- a) if the cost of the long-term specified asset is not less than the capital gain arising from the transfer of the original asset, the whole of such Capital gain shall not be charged under section;
- b) if the cost of the long-term specified asset is less than the capital gain arising from the transfer of the original asset, so much of the capital gain as bears to the whole of the capital gain the same proportion as the cost of acquisition of the long-term specified asset bears to the whole of the capital gain, shall not be charged under Section 45.

Provided that the investment made on or after the 1st day of April 2007 in the long-term specified asset by an assessee during any financial year does not exceed fifty lakh rupees.

The following second proviso shall be inserted after the existing proviso to sub-section (1) of Section 54EC by the Finance (No. 2) Act, 2014, w.e.f. 1-4-2015:

Provided further that the investment made by an assessee in the long-term specified asset, from capital gains arising from transfer of one or more original assets, during the financial year in which the original asset or assets are transferred and in the subsequent financial year does not exceed fifty lakh rupees.

2) Where the long-term specified asset is transferred or converted (otherwise than by transfer) into money at any time within a period of three/five years (as the case maybe) from the date of its acquisition, the amount of capital gains arising from the transfer of the original asset not charged under Section 45 on the basis of the cost of such long-term specified asset as provided in clause (a) or, as the case may be, clause (b) of sub-section (1) shall be deemed to be the income chargeable under the head "Capital gains" relating to long-term capital asset of the previous year in which the long-term specified asset is transferred or converted (otherwise than by transfer) into money."

EXPLANATION - In a case where the original asset is transferred and the assessee invests the whole or any part of the capital gain received or accrued as a result of transfer of the original asset in any long-term specified asset and such assessee takes any loan or advance on the security of such specified asset, he shall be deemed to have converted (otherwise than by transfer) such specified asset into money on the date on which such loan or advance is taken.

3) Where the cost of the long-term specified asset has been taken into account for the purposes of clause (a) or clause (b) of sub-section (1),

- a) a deduction from the amount of income-tax with reference to such cost shall not be allowed under section 88 for any assessment year ending before the 1st day of April, 2006.
- b) a deduction from the income with reference to such cost shall not be allowed under section 80C for any assessment year beginning on or after the 1st day of April, 2006.

EXPLANATION: For the purposes of this section.

- a) cost, in relation to any long-term specified asset, means the amount invested in such specified asset out of capital gains received or accruing as a result of the transfer of the original asset;
- b) long-term specified asset for making any investment under this section during the period commencing from the 1st day of April, 2006 and ending with the March 31, 2007 means any bond, redeemable after three years and issued on or after the 1st day of April, 2006, but on or before March 31, 2007
 - i) by the National Highways Authority of India constituted under section-3 of the National Highways Authority of India Act, 1988 (68 of 1988); or
 - ii) by the Rural Electrification Corporation Ltd., a company formed and registered under the Companies Act, 1956 (1 of 1956),

and notified by the Central Government in the Official Gazette for the purposes of this section with such conditions (including the condition for providing a limit on the amount of investment by an assessee in such bond) as it thinks fit:

Provided that where any bond has been notified before the 1st day of April, 2007, subject to the conditions specified in the notification, by the Central Government in the Official Gazette under the provisions of clause (b) as they stood immediately before their amendment by the Finance Act, 2007, such bond shall be deemed to be a bond notified under this clause;

ba) long-term specified asset for making any investment under this section on or after the 1st day of April, 2007 means any bond, redeemable after three years and issued on or after the 1st day of April, 2007 by the National Highways Authority of India constituted under section 3 of the National Highways Authority of India Act, 1988 (68 of 1988) or by the Rural Electrification Corporation Limited, a company formed and registered under the Companies Act, 1956 (1 of 1956) or any other bond notified by the Central Government in this behalf.

In this regard, Central Board of Direct Taxes, Department of Revenue, Ministry of Finance, Government of India vide its notification no. No. 79/2017/F. No. 370142/18/2017-TPL dated August 8, 2017 has notified that any bond redeemable after three years and issued on or after date of the abovementioned notification by IRFC, shall be considered as long term specified asset, for the purpose of Section 54EC of Income Tax Act, 1961.

IRFC shall not be responsible for denial of benefit under Section 54EC of the Income Tax Act, 1961 to the investor and any consequences arising thereof.

Finance Bill 2018-19 has proposed following amendments to Section 54 EC:

In section 54EC of the Income-tax Act, with effect from the 1st day of April, 2019,—

(a) in sub-section (1), after the words “long-term capital asset”, the words “,being land or building or both,” shall be inserted;

(b) in sub-section (2), before the Explanation, the following proviso shall be inserted, namely:—

‘Provided that in case of long-term specified asset referred to in subclause

(ii) of clause (ba) of the Explanation occurring after sub-section (3), this sub-section shall have effect as if for the words “three years”, the words “five years” had been substituted.’;

(c) in the Explanation occurring after sub-section (3), for clause (ba), the following clause shall be substituted, namely:—

‘(ba) “long-term specified asset” for making any investment under this section,—

(i) on or after the 1st day of April, 2007 but before the 1st day of April, 2018, means any bond, redeemable after three years and issued on or after the 1st day of April, 2007 but before the 1st day of April, 2018;

(ii) on or after the 1st day of April, 2018, means any bond, redeemable after five years and issued on or after the 1st day of April, 2018, by the National Highways Authority of India constituted under section 3 of the National Highways Authority of India Act, 1988 or by the Rural Electrification Corporation Limited, a company formed and registered under the Companies Act, 1956 or any other bond notified in the Official Gazette by the Central Government in this behalf
